

Dear MassPack Members utilizing Envipco RVM:

Envipco has informed me that some of its MassPack customers have questions about MassDEP COVID-19 guidance as it relates to Bottle Redemption. To clarify, the MassDEP has not halted the Bottle Bill Law, but rather suspended its enforcement actions in consideration of possible retailer labor shortage issues. I have spoken to Envipco and it has assured me that all MassPack RVM customers who continue to redeem will be fully supported. Envipco's recycling program is considered an essential service and Envipco will continue to provide pickup and machine repair services as needed for each location. Feel free to contact Envipco if you choose to continue providing redemption services to your customers. Envipco contact information can be found below.
